

Many Women who are Splendid Cooks

dread having to prepare an elaborate dinner because they are not sufficiently strong to stand over an intensely hot coal range. This is especially true in summer. Every woman takes pride in the table she sets, but often it is done at tremendous cost to her own vitality through the weakening effect of cooking on a coal range in a hot kitchen.

It is no longer necessary to wear yourself out preparing a fine dinner. Even in the heat of summer, you can cook a large dinner without being worn out.

New Perfection WICK BLUE FLAME Oil Cook-stove

Gives no outside heat, no smell, no smoke. It will cook the biggest dinner without heating the kitchen or the cook. It is immediately lighted and immediately extinguished. It can be changed from a slow to a quick fire by turning a handle. There's no drudgery connected with it, no coal to carry, no wood to chop. You don't have to wait fifteen or twenty minutes till its fire gets going. Apply a light and it's ready. By simply turning the wick up or down you get a slow or an intense heat on the bottom of the pot, pan, kettle or oven, and nowhere else. It has a Cabinet Top with shelf for keeping plates and food hot, drop shelves for coffee, teapot or saucepan, and even a rack for towels. It saves time, worry, health and temper. It does all a woman needs and more than she expects. Made with 1, 2, and 3 burners; the 2 and 3-burner sizes can be had with or without Cabinet.

Every dealer everywhere; if not at yours, write for Descriptive Circular to the nearest agency of the

Our Jefferson City Letter.

Say, governor, think again, or think once, did you mean to say that your chief business is to advertise Missouri? Didn't you mean to say that your chief business is to advertise one Herbert S. Hadley? Is it not your chief concern to keep him in the public eye by whatever available means? Anyhow, that is the way it looks to a man up a tree.

Grave fears are expressed by some of the Jefferson City correspondents to the metropolitan papers that Hadley will run out of advertising material. This is hardly probable so long as the newspapers will print all sorts of silly twaddle about log cabins, dogs, pigs, harvest, wheat patches, etc. Oh no, there is no danger at all. His excellency has the gall to get into print on little provocation or without provocation. He doubtless keeps one hand busy "framing up" something for the newspaper boys. So long as "tweedle dee" and "tweedle dum" will be printed, the supply will not be exhausted.

It's no use. Missouri Democrats have nominated their choice for the different offices and they are going to line up and elect them in November, in spite of the attempt of Republican papers and Near-Republican papers wearing Democratic uniform to stir up discord. There is just one brand of Democracy that is worth a button, and that is just plain Jeffersonian and Jacksonian Democracy without any other qualifying adjectives. The nominations are made. Let every man vote to elect the nominees whether they were his choices for the nominations or not. This is Democratic.

The Business Mens Auxiliary Club recently formed in St. Louis, which is pledged to cooperate with the Democratic State Central Committee, appears to worry the Republicans. And we are not surprised. For years the business men in St. Louis, especially, have been lukewarm in their support of the various Democratic tickets, and as a consequence, the Republicans have had things largely their own way. A return to the active support of the Democratic principles and Democratic candidates at this time, means much. The business men are welcome as are the laboring men of all descriptions. To win in Missouri by a record breaking majority, we want them all. There is room even for more.

Any time the Republicans slip one over on Con. Roach they are welcome, thank you. The secretary of state is an experienced Democratic battler and he has a good eye for Republican twisters. Recently Hadley handed up a gerrymander inshoot to Con. "Strike," shouted Swanger, who was doing the receiving behind the bat. "Strike," shouted Homer Hall a \$10 per day and board coacher for the Republican team "Looks like a foul to me," calmly observed Con. "Foul," came in stentorian tones from the lips of the umpire, and immediately Hadley was yanked out of the box. Swanger sent to the club house and Hall put off the grounds. You can't fool the Democrats when Con. Roach is at the bat.

In the days when the Missouri Democracy was triumphant, the business men of the state were active party workers. During recent years a considerable percentage of this element have taken but little interest in the success of the ticket. With the business element solidly in line the party is invincible; without them, we often go down to defeat. Recognizing the importance of the United business element of

the state in the cause of Democracy, the State Central committee authorized the executive committee to organize a business men's auxiliary of prominent citizens throughout Missouri. In response to the call, more than one hundred successful business men met in St. Louis on July 28th, and formed an organization to co-operate with the Democratic State committee in the work of redeeming Missouri this fall. It is confidently expected that this organization of business men will be worth many thousand votes to the party in November, and votes is what we need to win. Every loyal Democrat should extend a hearty welcome to these helpers in the fight for Democratic supremacy in Missouri. The doors of the Democratic church are wide open and the invitation is to every one opposed to the Aldrich tariff, the greed of trusts and the riotous extravagance of the Republican party. Come on and help us turn the rascals out. The right hand of fellowship and a royal welcome awaits you.

Bood-bye, Mr. Gerry-mander, take good care of yourself.

The Democratic bugle calls to arms. Fall in boys, fall in! Shoulder to shoulder, let's march right on to victory, keeping step to Harmony.

The Democratic party has nominated a clean, strong, competent ticket. Now let every Democrat take off his coat and help elect it from top to bottom in November.

The Republican delegation from Missouri are merely Aldrich's rubber stamp. Would it not be well to send representatives of the Missouri people to Washington in their stead?

The Republican party renominated the Rhode Island congressmen to Missouri, but the people will see to it in November that Missouri congressmen are sent to Washington from this state.

As a \$10 per day and board copy-holder for an expert proof-reader, Homer Hall, shines with a more brilliant luster than he does when playing under a gerrymander spot-light.

Col. Jerry Mander received a couple of black eyes up at Jefferson City the other day. He got the Hadleyism and Swangerism swatted out of his system. From now on he will likely be a stand-patter.

President Wilson of New Jersey stands a good show of being elected governor of New Jersey on the Democratic ticket. The Republicans there think he is "Wilson; that is all." They are especially fond of that brand.

It is said that the Guggenheims are especially pleased with Missouri Republicans for renominating the bunch of Rhode Island congressmen Tuesday. But the Guggys will laugh from the other side of their mouth when they get the news from Missouri in November.

The Republican machine defeated insurgent David W. Hill down in the 14th congressional district and renominated Rhode Island Crow. It's now up to the people to send a Missouri congressman to Washington in the place of Aldrich's man who represents Rhode Island.

The Guggenheims had their way about it in the 15th congressional districts and Cannon's man Friday, Charley Morgan was renominated over an insurgent Republican who wanted the district to send a man to Washington to represent Missouri instead of Rhode Island. Morgan is one of those Aldrich rubber stamp

congressmen. The people will send Judge Daugherty to congress from the 15th district and thus cause Rhode Island to lose another member from Missouri.

The Republican standstillers are more numerous and dangerous than the standpatters. They will reserve most of their noise till November.

A government official distinguished himself recently by giving away the means by which the sugar trust was smuggling and robbing Uncle Sam. Was he promoted for his good work? Not on your life. For his audacity he was at once dismissed from the service. Under conditions now existing in Washington it is considered a crime to do anything that will tend to embarrass any of our infant industries.

One of the most gigantic trusts of the day is the Pullman Palace Car Co., trust. It has successfully resisted every effort to have its rates lowered. It defies the courts of the lands and scoffs at opposition. Speaking of this plundering viper a paper published in the shadow of Wall street has this to say: "What does the corporation do today that cannot pile up money under the laws of the land? Why, the corporation has the laws changed or manipulated to suit its own greedy needs. Take the instance of the Pullman company, which today is twisting and turning before every court in the land in an effort to dodge an order of a Federal commission to lower its rates. Anyone old enough to think has a hatred against this immensely wealthy corporation because of its arbitrary maintenance of sleeping car fares that work hardships on the traveler of moderate means and robbery of the less fortunate. Who is the president of that company? Robert Lincoln, a son of Abraham Lincoln! Abraham Lincoln was a statesman and not a politician. If the same kind of consideration for the general welfare existed in the son as was so grandly shown in the father, would the gigantic greed of the Pullman company be so pronounced today? We think not."

Afraid of Moonlight.

"The majority of Porto Ricans have instilled in them from earliest infancy a superstitious dread of the full moon's rays," said James A. Purman, an expert builder of sugar mills who has just returned from that country.

"It is a curious sight to the American visitor to note men and women going along the streets and highways of the island with umbrellas raised over their heads at night, and the more brilliantly the moon is shining the greater will be the number of people who are thus protecting themselves from her beams. Out in the sequestered rural districts a gay mounted cavalier will be met at midnight, his bridle rein in one hand and an upraised umbrella in the other. It looks weird and also ridiculous, but the natives do it for a peculiar reason. They are possessed of the conviction that Luna's full light striking upon mortals is almost sure to make them mentally unsound, that is to say lunatics, and that is why they interpose a shield between them and her dazzling brightness.

"To sleep where the moon could shine full upon one is, in the view of a Porto Rican, to tempt fate, and it would be a daring one who could be hired to do it for any consideration."

S. T. Huff spent Saturday night in Kansas City on business. Mrs. Lewis Roy went to Kansas City Sunday morning for a few days' visit.

Free Liver Remedy

It is well to stop a physical ailment at the first signs of its approach, and that is especially true of liver trouble, which can eventually give rise to so many serious complications. Many have liver trouble and imagine it is indigestion, and hence take the wrong remedy.

When the liver does not store up sufficient gastric juices it becomes sluggish, and in this way disturbs the stomach and bowels, with which it is supposed to work in harmony. Then comes the sallow complexion, the pimply face, the dull pain in the forehead, the thinning of the blood, etc. A very quick and sensible way to stop the trouble as well as to cure it is by the use of Dr. Caldwell's Syrup Pepsin, which contains ingredients especially intended to promote the activity of the liver.

Among the many thousands who have written the doctor about the results achieved with his remedy, and who are glad to make the facts public so that others can help themselves, are Mr. Jas. Kennedy, St. Louis, Mo.; Mrs. S. A. La Rue of Smith's Grove, Ky., and many others.

These, like thousands of others, started the use of Syrup Pepsin with a sample. If you will send your name and address you can also obtain a free trial bottle. This will prove to you that liver trouble is promptly cured with this remedy or money will be refunded. Having tried it you can then buy it in the regular way of your druggist at fifty cents and one dollar a bottle, and the latter is sufficient for an entire family.

This remedy is a vast improvement over cathartic tablets and salts, which only do good for the time being. Syrup Pepsin is permanent in its results, is pleasant to take and does not gripe. It is especially good for all those who cannot stand a violent purgative.

Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For either request the doctor's address is Dr. W. B. Caldwell, R. 500 Caldwell building, Monticello, Ill.

Life of Gov. Johnson

The life-story of the "Great Governor of Minnesota" is the most inspiring story of the life of a real man that has been published in this generation.

The late governor was characterized as the most lovable man in public life since the days of Abraham Lincoln, and his biography is instructive, inspirational and thrilling.

The "Life" was published by authority of the widow, and in her benefit. The authors and publishers were intimate friends of the late governor, one of them, Mr. Day, being his private secretary.

The book contains 430 type pages and 22 pages of illustrations, or 452 pages all told, and is a perfect specimen of the best printing and binding.
